

Go for Gold!

The S-Monovette® –
the gold standard
in blood collection

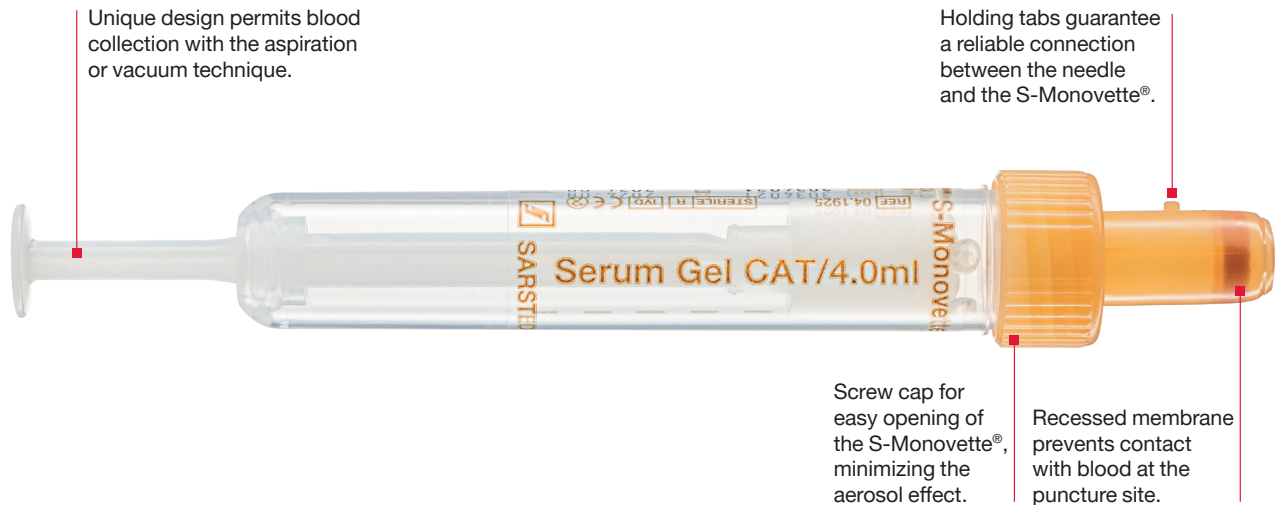

SARSTEDT

Venous blood is the most important sample material for medical analysis. And the basis for performing diagnostics smoothly and precisely is optimal specimen quality. The S-Monovette® from SARSTEDT has set standards in this field since its launch:

No other blood collection system provides such optimal specimen quality, regardless of the vein conditions – reliable blood collection for a reliable diagnosis.

Set standards in blood collection

The S-Monovette®

Saves time – Save time when it matters.

Safe – Protection where it is needed.

First-rate patient care – The well-being of your patients is non-negotiable for us.

Sustainable – An investment in a better future.

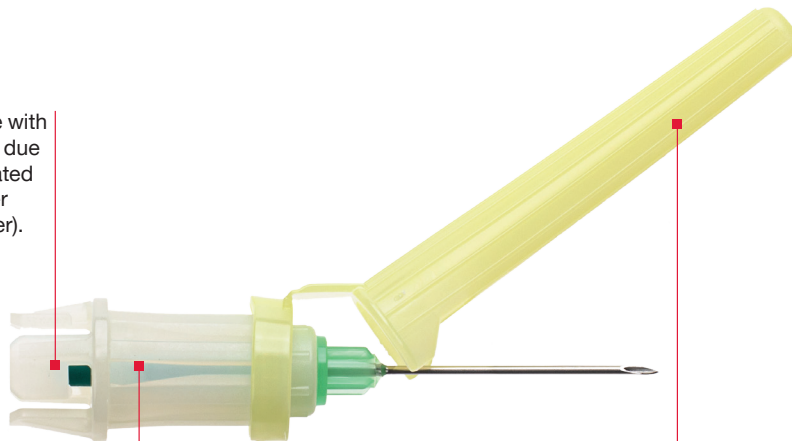

Everything from a single source – Achieve more together. Let's work together!
