

Go for Gold!

The S-Monovette® – the gold standard in blood collection

Pre-analytics

Set standards in blood collection

The S-Monovette®

Venous blood is the most important sample material for medical analysis. And the basis for performing diagnostics smoothly and precisely is optimal specimen quality. The S-Monovette® from SARSTEDT has set standards in this field since its launch:

No other blood collection system provides such optimal specimen quality, regardless of the vein conditions – reliable blood collection for a reliable diagnosis.

Saves time – Save time when it matters.

Safe – Protection where it is needed.

First-rate patient care – The well-being of your patients is non-negotiable for us.

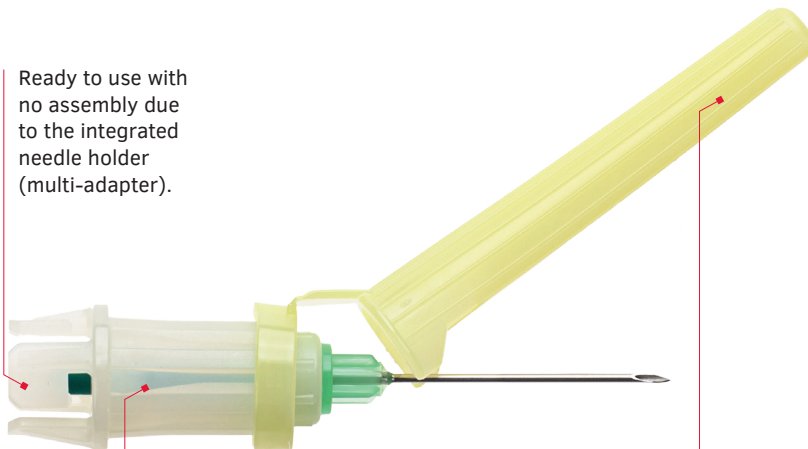

Sustainable – An investment in a better future.

Everything from a single source – Achieve more together. Let's work together!

Ready to use with no assembly due to the integrated needle holder (multi-adapter).

Slim, ergonomic needle holder design ensures a flat puncture angle.

Special needle guard minimises the risk of needlestick injuries.
